

## **Technician - Medical Endoscope Repair**

ScopeCare is a rigid and flexible endoscope service repair company located in Vaughan, Ontario. For more than 20 years our team has provided a premium one-stop OEM Correct™ repair service with competitive pricing to customers around the world.

**We are currently seeking to fill 2-3 full-time Technician - Medical Endoscope Repair positions for either Junior or Experienced technicians in both our Rigid and Flexible departments at our Concord, Ontario office. Hours would be Monday to Friday from either 8:00 to 16:00, or 8:30 to 16:30.**

The Technician – Medical Endoscope Repair will be a fast learner, possess good observation skills and be able to follow instructions. The successful candidates will be trained on the repair and testing of either flexible or rigid endoscopes.

The daily tasks of the role include the repair and testing of the endoscopes using an inspection microscope, calipers, various custom and standard hand tools (including but not limited to tweezers, small scale pliers, precision screwdrivers, pin vises, scalpels, etc...), as well as various industry specific testing devices and jigs. ScopeCare being an ISO13485 certified company, each technician is expected to follow directives and processes to ensure consistency of our service and repair quality.

## **Required Education, Skills and Qualifications**

The junior technician must be a fast learner, possess good observation skills and be able to follow instructions.

The candidate we are looking for should meet the following requirements:

- Good knowledge and understanding of English in a technical environment.
- Training and/or work experience in a technical field, experience with small scale mechanics is a plus.
- Experience working with various hand tools such as but not limited to tweezers, small scale pliers, precision screwdrivers, pin vises, scalpels and soldering iron, as well as an inspection microscope and calipers.
- Excellent dexterity, visual acuity, coordination as well as mechanical and technical skills are a must.
- Knowledge of endoscopes, biomedical training or experience in a healthcare environment are not required but a plus.

We offer a competitive remuneration program and benefits. Please send a cover letter and resume to [info@scopecare.com](mailto:info@scopecare.com). Only short-listed candidates will be contacted. No phone inquiries please.
